CAPSLOCK SS.2026 COLLECTIONS

# FL\*W STATE

## NOTES FROM THE STATE

**Flow State** in running is a mental condition where a runner becomes fully immersed in movement, creating a seamless connection between mind and body. Every stride feels natural, effortless, and rhythmic, free from conscious overthinking.

In this state, focus sharpens, distractions fade away, and time seems to move differently. Breathing, pace, and motion align in harmony, allowing the body to perform at its peak without unnecessary pressure or strain.

Through this collection, **Capslock** translates this experience into a series of bold visual expressions that embody energy, rhythm, and freedom of movement. Dynamic typography and strong graphic elements reflect the transition between focus, speed, and balance.

**Flow State** represents the moment when movement becomes instinctive a state where one is fully present in the process.

*Embracing the journey,  
and discovering  
their highest potential  
through motion.*
